

PROFILE

I lead AI and automation projects end to end — from process audit through deployment to measuring results. It is not only about AI, but above all about redesigning processes and project management. Co-founder of the AI automation company Laistra and co-founder of the educational initiative Akadémia AI. At IT v kurze I led the transformation of several departments to an AI-first way of working, with real, measurable results. I am looking for the opportunity to bring this experience into an international, high-impact company.

LUKÁŠ LORENC

AI IMPLEMENTATION & PROCESS MANAGEMENT

EXPERIENCE

LAISTRA – CO-FOUNDER

03/2026 – Present · Bratislava, Slovakia (remote)

- Strategy, business development and sales for an AI automation company focused on Slovak SMEs (10–100 employees)
- Client process audits, design and deployment of custom AI agents (CRM, ERP, e-mail) – lead qualification, reporting, support, onboarding

AKADÉMIA AI – CO-FOUNDER

01/2026 – Present · Bratislava, Slovakia (hybrid)

- Building partnerships with schools, companies and grant institutions
- Preparing and delivering lectures and workshops on AI and cybersecurity for pupils and teachers
- Strategic direction of the non-profit association and content creation

IT V KURZE – HEAD OF EDUCATION AND AI/AUTOMATION INTEGRATION

04/2025 – Present · Self-employed, remote

- Leading teaching teams and setting up new processes; managing the AI and automation team across the department
- **Transformed several departments to AI-first operation** – process redesign across the whole company (content creation, assessment, course delivery, operations)
- End-to-end AI automation of student output and progress review – **86% time saving, 100% cost saving** (role eliminated), quality **98–99%**
- Redesigned the course production system – **50% reduction in course delivery time**
- Dozens of smaller AI and script solutions for content creation and process maintenance – average **50–60% time saving** while maintaining quality
- Project management is a core part of the work – defining scope, milestones and measurable results, not just technical implementation

IT V KURZE – CONTENT PRODUCTION MANAGER

02/2024 – 04/2025 · Bratislava, Slovakia

- Managing educational content production and building process structures that later served as the foundation for the department's AI-first transformation

EUROJOB INTERNATIONAL HOLDING BV – TEAM LEADER

11/2019 – 08/2023

- Responsible for the team and its performance, planning and distributing work to meet daily targets
- Mentoring new employees

EPOJISTENI.CZ, S.R.O. – INSURANCE BROKER

11/2018 – 11/2019

- Car insurance brokerage, keeping up-to-date knowledge in the car insurance field
- Managing the client database

ILAS MARKET S.R.O. – REGIONAL MANAGER → DEPUTY HEAD OF LOGISTICS

2016 – 2018

- Managing several stores across the region (retail chain of bakeries and confectioneries) – responsible for performance, staff and standards compliance
- Promoted to Deputy Head of Logistics – store supply, warehouse coordination and distribution route optimization

EDUCATION

JUNIOR C# DEVELOPER – IT V KURZE, S.R.O., final examination

03/2023 – 07/2023

JUNIOR JAVA DEVELOPER – IT V KURZE, S.R.O., final examination

08/2022 – 02/2023

HOTEL ACADEMY – MICHALOVCE, secondary school leaving examination

09/2008 – 06/2013

ADDITIONAL COURSES & CERTIFICATIONS

- SQL
- AI in project management
- Project management course
- Various AI-focused courses
