SKILLS

- Manual Testing
- Bug Reports
- Test Cases
- REST API
- SQL
- Postman Basics
- HTML, CSS, JavaScript
- Python
- FastAPI
- PostgreSQL / Supabase
- GitHub
- Excel

LANGUAGES

- Ukrainian – Native
- Russian – Native
- Czech – Intermediate B1
- English – Intermediate B1

PROFILE

IT student interested in software testing and web application development. I have practical experience from my diploma project, where I worked with a Telegram Mini App marketplace, REST API, FastAPI backend and PostgreSQL/Supabase database. I am interested in QA because I like checking application logic, finding bugs and testing user flows. I am ready to learn new tools and grow as a Junior QA Tester.

PROJECT EXPERIENCE

Diploma Project 2025 – PRESENT

- Developed and tested a Telegram Mini App marketplace for buying and selling digital items.
- Worked with FastAPI backend, PostgreSQL/Supabase database and HTML/CSS/JavaScript frontend.
- Tested REST API endpoints for users, products, cart, orders, reviews, reports and admin panel.
- Checked main user flows: login, product creation, catalog, cart, order creation, reviews and reports.
- Created and verified test scenarios for registration, product publishing, order processing and admin actions.
- Used SQL queries to check data in database tables and verify relations between users, products and orders.
- Tested API responses, validation rules and error handling.
- Reported and fixed UI/API bugs during development.
- Technologies: Python, FastAPI, PostgreSQL, Supabase, SQLAlchemy, HTML, CSS, JavaScript, GitHub.

EDUCATION

IT / Programming Studies 2022 – 2026
College in Ukraine

Relevant subjects: Python, C++, HTML, SQL, databases, web development.
Diploma project: Telegram Marketplace Mini App with FastAPI backend and PostgreSQL database.
