

Roth Šimon

programmer

Hello, my name is Šimon and I am 14 years old. I use several different types of programming languages and I've worked with different types of AI and AI agents, and also different programming frameworks and tools. It's basically my hobby.

Skills

- programming in languages like C ++, C, C#, Python, HTML, Java (Programming in Minecraft), scratch, Luau(programmig in Roblox)
- knowledge of various frameworks like pygame,pytest,Qt,Unity and so on.
- I can learn something I don't know whenever it's necessary.
- I can adapt to any development environment and I can understand the code someone has written.
