Kyrylo Nesvitailo

Full Stack Developer

About Me

Computer Science student and passionate Full-Stack Developer with practical experience in building scalable web applications. Proficient in React, TypeScript, Node.js, and MongoDB. Proven track record of developing end-to-end products, including AI integrations (ElevenLabs) and payment systems (Stripe).

Pet-projects as Work Experience

Feb 2026 – May 2026

STORII

Full Stack Developer

This project i did by myself. The main idea of that project was build a platform for fanfic readers to listen fanfics by AI. I build a client – server architecture, implement subscriptions with Stripe and ElevenLabs AI model for generating mp3 files

Mar 2025 – Dec 2025

YUMI

Full Stack Developer

I build this ecosystem by myself. I did all design and infrastacture. Also i have implemented Stripe subscription for my project`s.

June 2024 – 2025

ENTRACON

Front-End Developer

I worked with client part. Make design and implement into realease version
